This residency site agrees that no person at this site will solicit, accept, or use any ranking-related information from any residency applicant.

MedImpact: A Unique PBM

MedImpact, an independent, trend-focused pharmacy benefit manager (PBM), is the nation's largest privately held PBM, serving health plans, self-funded employers and government entities.

Our business model is unique: avoiding conflicts by not owning fulfillment. Instead, we focus on effectively managing client pharmacy benefits for Lower Cost and Better Care through One Source.

Our number one goal is client satisfaction by providing flexible solutions and patient-centric products, with a focus on low net-cost and quality outcomes.

Founded in 1989, MedImpact provides pharmacy services for more than 50 million lives in the U.S. and abroad while processing in excess of 430 million claims annually.

MedImpact is headquartered in San Diego, California, nicknamed "America's Finest City." Besides having one of the world's most favorable climates (about 70° year-round), San Diego has broad commercial, cultural and recreational appeal, offering a wealth of diverse activities.

MedImpact's Managed Care Pharmacy Residency Program develops future managed care leaders by helping residents build a strong foundation of knowledge in both clinical and managed care principles.

Core Experiences

Clinical Operations I & II

Learn benefit design and utilization management strategies, understand claims adjudication, and perform cost savings and member impact analyses.

Clinical Programs

Learn about various clinical programs. Contribute to clinical quality programs, such as Drug Utilization Review (DUR), Transitions of Care, and other initiatives to improve HEDIS and CMS Star Ratings.

Formulary Management

Develop and present monographs and formulary management recommendations to MedImpact's P&T Committee. Monitor and evaluate the Clinical Pipeline.

Clinical Account Services

Directly support clients by developing and implementing quality and cost saving initiatives and managing custom formularies across all lines of business. Learn about all lines of business including Part D, Health Insurance Marketplace, and Medicaid.

Government Program Management

Learn about various government program designs. Participate in the management of government programs (Medicaid, Medicare, Health Insurance Marketplace) such as drug rebates, Coordination of Benefits (COB), and 340B.

Quality Assurance and Improvement

Perform quality program oversight and develop quality improvement initiatives. Support regulatory and client oversight audits.

Longitudinal Experiences

Clinical Prior Authorization

Evaluate prior authorization requests and understand the regulatory requirements governing prior authorization review. Three weeks of core rotation to establish a foundational skillset. Four hours of weekly staffing longitudinally post core rotation. Example: Staff PA Queue on Wednesday morning from 8:30am-12:30pm.

Leadership and Professional Development

Learn how to manage projects, navigate corporate complexities, and lead a team. Develop presentation skills and lead meetings. Derived from ASHP's model for leadership and professional development.

Research Project

Conduct a longitudinal research project designed for presentation at AMCP Annual. There is opportunity to publish in a wide range of areas within managed care pharmacy.

Elective Experiences

8 weeks are available for elective rotation content. Opportunity is based on preceptor availability and resident preference. An example elective rotation could be Trade Relations.
